## Summary

Experienced Full Stack Web Developer skilled in NodeJs, PHP, VueJs, PostgreSQL, MySQL etc. Strong engineering professional with a Bachelor's Degree focused in Information Technology from London Metropolitan University.

## Experience

### Full Stack Developer

UNDONE

Aug 2018 - Present (4 years 2 months +)

- Modernized our legacy back end app originally built on Codeignitor to Laravel.
- Adapted ADR pattern into the back end architecture to maintain well segregated, context agnostic and reusable code.
- Improved legacy front end by replacing it with NuxtJs (Vue.Js), enabling server side rendering. Resulted into 50% faster loading times and increasing SEO score.
- Built CI/CD pipelines using Github Action, Docker and custom scripts - helping teams deploy more frequently.
- Integrated various marketing tools like drip, segment, google analytics, optimize etc. into our platform.
- Optimized SEO with serve side rendering, lazy loading images and other better web practices.

### Web Developer

Freelance

Sep 2019 - Present (3 years 1 month +)

- Participated in full lifecycle of development for company website using wordpress + woocommerce.
- Depolyed sites on AWS lightsail.
- Modified and built wordpress plugins to meet the user requirements.

### Full Stack Developer

Xccelerate

Feb 2018 - Jun 2018 (5 months)

- Built front end application using ReactJs and Redux. Focusing on functional and reusable components.
- Built backend server using Nodejs with Express.
- Set up database with Redis and PostgreSQL.

### Junior Software Developer

Pagevamp

Mar 2017 - Nov 2017 (9 months)

- Migrated legacy app to Laravel taking full advantages of the framework's features like Fast URL Routing, Separate Business Logic and Presentation Codes for Easy Revisions etc.

- Integrated old and new themes into the app using Php and JavaScript
- Collaborated with the whole team via Github.
- Researched and implemented various tools like webpack, gulp, rollup etc.
- Debugged issues on both back-end and front-end (angularjs).
- Written test specs for laravel (Php Unit)

## **Intern**

Inbox IT Solutions

Dec 2016 - Feb 2017 (3 months)
